

PARTS WIZARD

EASILY TRACK & MANAGE YOUR PARTS INVENTORY.

Increase Parts Department efficiency by scanning, posting and printing in a single step.

The integrated Dealertrack DMS Parts Wizard provides a wireless remote scanning device that scans parts and simultaneously posts them to your system. The device will actually speak to alert you when a part number is not recognized or when an item was previously scanned.

Features and Benefits:

- Manual tasks such as checking packing slips, labeling and recording parts are eliminated.
- Parts detail is automatically loaded and “anytime, anywhere” scanning lets you do more in less time.
- Parts Wizard is completely wireless, and allows for printed reports and posting of receipts.
