

VEHICLE WIZARD

SCAN & TRACK YOUR VEHICLES, ANYWHERE & ANYTIME

Get an accurate Inventory assessment every time.

With Vehicle Wizard you can scan and track your inventory from anywhere they are stored. This wireless device is integrated with the DMS, and can verbally notify the user when a unit is not recognized, has already been scanned or is missing from your lot.

Features and Benefits:

- Protect your most important investment with the ability to update your DMS inventory quickly.
- Boost profitability by automating your inventory process for new and used cars.
- Increase efficiency with a wireless device that allows you to easily scan off-site and large-lot inventories.
