

# Dealertrack eContracting

The fastest way to get funded is also  
the most convenient.

Not just the industry's eContracting pioneer, Dealertrack also delivers the premier electronic solution to connect dealers with lenders for fast and accurate contracting. With 20 key lenders across the US available for you to electronically verify, sign and submit contracts, funding can occur as fast as the same day.

By quickly providing a complete contract to the lender, say good-bye to re-contracting, because missing signatures and contract errors are caught before submission to the lender.

Furthermore, elevate the customer's buying experience by signing on an iPad® or Android™ tablet, allowing the deal to be finalized anywhere in a Wi-Fi connected showroom.

econtracting](http://dealertrack.com/econtracting)

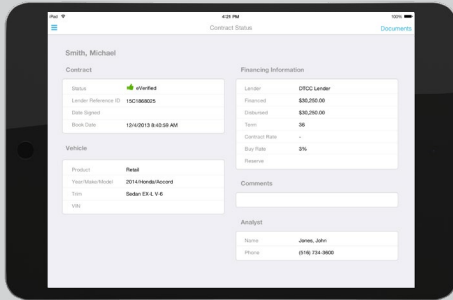

## Features:

- Quickly and easily electronically verify, sign and submit contract data
- Contracts are complete and accurate – Dealertrack eContracting catches errors and missing signatures before submitting for funding
- Easily integrates with all common DMS and CRM platforms
- Mobile review and signing functionality eliminates the need for a forced print review, mimicking the paper signing process and creating a streamlined signing experience

## Benefits:

- Funding occurs as fast as same day, cuts interest expenses and improves cash flow
- Reduces re-contracting, which leads to increased customer satisfaction
- Contracts can be signed anywhere in the showroom with mobile review and signing, providing a comfortable customer signing experience
- Excellent ROI – no large investment in infrastructure or hardware required

## eContracting — The Mobile Review and Signing Game Changer

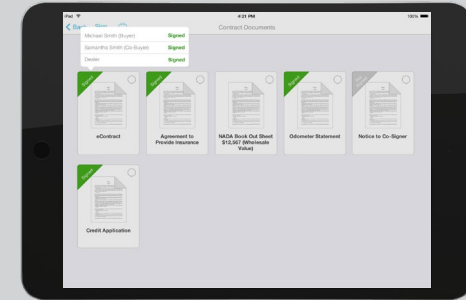

### 1. eVerify
