

OPENTRACK

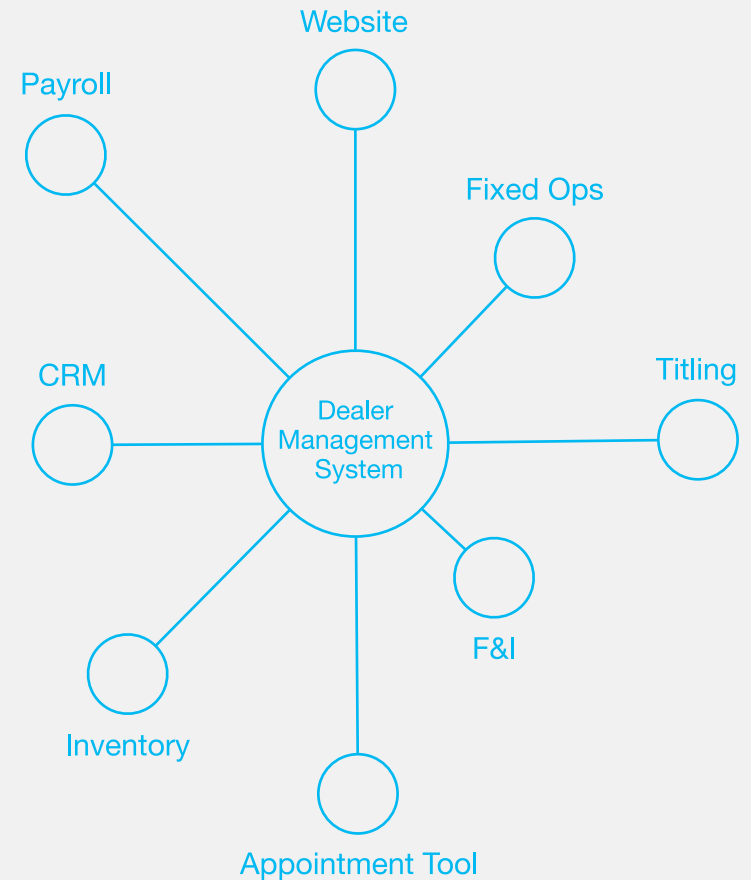

SIMPLE, SECURE DMS DATA INTEGRATION

Integrate with the vendors
of your choice with Opentrack.

Opentrack delivers secure, real-time, integration between the Dealertrack DMS and over 130+ third-party providers. Opentrack provides a number of unique and valuable benefits, including a broader selection of vendors, lower data access fees and the opportunity to develop custom solutions. Choose from best-in-class solution providers in the areas of CRM, inventory, desking, menu, service appointments and, more to give you the competitive edge.

Features and Benefits:

- Choose the third-party vendors that work best for your business.
- Increase productivity with seamless integration between your DMS and vendors.
- Streamline operations and reduce data entry errors.
- Get maximum flexibility to use solutions that best meet your needs.
