

## Express Recoveries

# Ease aftermarket product cancellations

On average 40 million F&I aftermarket products are contracted with 25% cancelled before term end.<sup>1</sup> Relying on dealers, who have no governing pressure nor incentive to initiate the cancellation process, puts lenders' reputation and compliance at risk.

Express Recoveries, powered by F&I Express, puts lenders in the F&I product cancellation driver's seat to ease and streamline the process — increasing rate of recovery, decreasing charge-offs, protecting reputation and helping to foster positive lender-dealer relationships.

- Eliminates dealers as intermediaries, supporting positive client relationships
- Increased refund recovery and accuracy reduces operating expenses
- Helps comply with state & federal regulations to protect industry reputation and mitigate risk
- Same workflow with more than 500 F&I product providers across the US
- Service and automation options to suit your business

<sup>1</sup> Figures based on reported U.S. annual vehicle sales, aftermarket product sales/penetration rates at original sale, direct-to-consumer sale, and resale. (2017 National Automobile Dealers Association; Collonade Advisors LLC)
