

Podcast Series: "The Scoop on Colorado ERT With Cindy V"

# How ERT Helps Dealers Comply With State Regulations

Host: Cindy Vieyra, Colorado Registration & Title Trainer

## Episode 7 / Key Takeaways

### 1 Forms Always Stay Up To Date

ERT software has a two-way connection with the DMV, so all required forms are continually updated in real-time, right in your system. No more resubmissions or delays.

### 2 Taxes & Fees Are Automatically Calculated

With up to date customer and county information, all relevant taxes and fees are calculated in the ERT software with precise accuracy.

### 3 Automatic Lien Stamping

ERT systems automatically capture the correct date, time, and employee initials for lien stamps on title applications and security agreements.

### 4 Automatically Updates Customer Info

Your ERT system will not let you submit title work without filling out every required field, and including every form. Manually resubmitting to correct mistakes is a thing of the past.
