DIGITAL CONTRACTING CHOICE

Fastest Path to the Fast Funding Finish Line

Step 1

Dealer chooses you as their Digital Contracting Choice Lender. Dealer and Buyer finalize the digital contract — either at the dealership or remotely through a safe/secure signing ceremony.

Step 2

The dealer submits the contract and ancillary documents, and you receive a real-time notification and link to retrieve from Dealertrack.

Step 3

You log securely into Dealertrack, where your digital contract and ancillary documents are neatly packaged for you to retrieve.

Step 4

View/Print/Download documents and follow your normal funding process to review and approve. Digital Contracting ensures dealers do not make calculation errors

or miss signature fields, so contracts arrive clean and complete.

Step 5

Your "booked/funded" status appears in Dealertrack per your process. And by receiving the package digitally in real-time, you've fast-tracked funding — for your funders and your dealers.
