

PAYMENT SOLUTIONS

A simple solution for requesting and receiving payments.

As the pace of commerce accelerates, manual accounting processes and inefficiencies between departments can slow your dealership to a standstill.

Payment Solutions provides dealerships with a singular way to request and receive payments across all dealership departments, and cascades all updates to the General Ledger.

Working alongside enhancements to the DMS, Payment Solutions helps dealers ensure efficient delivery and resolution of Accounts Receivable statements and Service invoices, while offering convenient payment options for consumers anywhere.

Features and Benefits:

- **Delivery of Digital Accounts Receivables Statements**—Reduce labor, printing, and mailing costs by bulk preparing and processing digital invoices with dealership branding. Payment Solutions will deliver your digital invoices via email or text, and manage payment delivery.
- **Delivery of Digital Service Repair Orders**—Send service and repair orders via text or email, and allow consumers to make convenient remote payments for an improved customer experience.
- **Multiple Ways for your Customers to Pay**—With Payment Solutions, your customers can receive and resolve payments digitally using a feature-rich payment portal. Give your customers the flexibility to use several payment types, including consumer credit, ACH, split payments, and more, and accept full or partial payments from any device or channel from anywhere in the world.
- **In-Store Transactions**—Payment Solutions provides the point-of-sale hardware you need to handle payments made in-store, supplied in partnership with Global Payments, Inc.
- **Automatic General Ledger Writeback**—Payment Solutions maps all payment activity back the dealership's General Ledger.
