

# How to set up Local Agent to provide security and allow printing

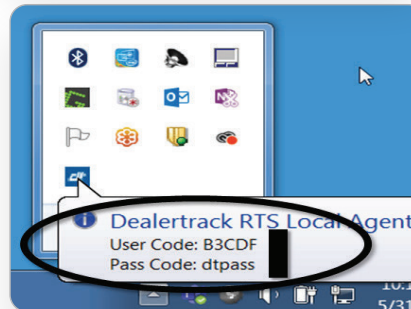

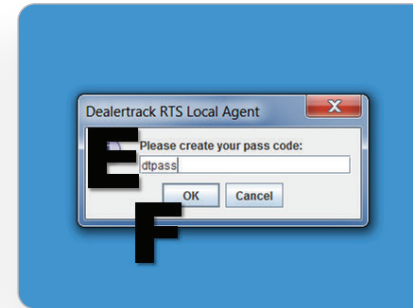

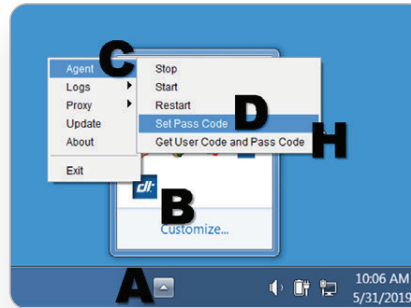

## Step 1: Install Local Agent

1. **Login** to Enhanced RegUSA.
2. Select **Utilities**.
3. Below Local Agent select **Install**.
4. Click **Install Now**.
5. Run **Installer**.
6. Once download is complete, select **Next**.
7. Select if you want the install for **All Users** of the PC, or just the **Current User** (you).
8. Select **Next**.
9. Choose the **Folder** (only if a different folder is desired).
10. Select **Next**.
11. Pre-Install Summary – Review & Select **Install**.
12. If you use a **Proxy Server**, check off the box. If you do not, leave the box unchecked.
13. Select **Next**.
14. When **Install Complete** appears select **Done**.

## Step 2: Get Codes (Pass & User)

- A. In the bottom task bar on your PC, **Open the Hidden Icons** (this is the upward arrow in the bottom right corner).
- B. Right Click on the **Dealertrack Logo**.
- C. Hover over **Agent**.
- D. Select **Set Pass Code**.
- E. Enter **Unique Code** of your choice (min. 5 characters).
- F. Click **Okay**.
- G. Repeat steps **A - C**.
- H. Select **Get User Code and Pass Code**.
  - I. A call out appears with the **Pass Code** you created and a **User Code** – write both down.

## Step 3: Sync Local Agent To Your Browser

1. **Login** to RegUSA.
2. Select **Utilities**.
3. Below Local Agent select **Setup**.
4. Select **Enable**.
5. Enter Codes into the appropriate fields On Screen.
6. Select **Sync**.

**NOTE:** Anytime the cache is cleared on your PC, you will need to perform STEPS 2 & 3 again.
